

T-SPB

INDUCTION STOCK POT BOILER

The Target T-SPB induction stock pot boiler is a freestanding low level mobile unit designed specifically for large capacity stock production, and suits individual stock pots of up to 36/40cm diameter, typically 47Ltr capacity. The power and temperature control of the induction hob provides rapid heat-up times and minimises the chance of overheating and spoiling, ensuring consistent quality of the end product.

Dimensions	Width (mm)	Depth (mm)	Height (mm)
T-SPB	600	700	500
